DESIGN KOREA 2024

**Discover Korean design brands
attracting global attention
at the Design Korea pavilion in Maison&Objet!**

**As KIDP supports the international expansion
of Korean design companies, designers, and
design products, we are excited to showcase
25 leading Korean home essentials and living
brands at our third Maison&Objet exhibition
this year.**

**This September,
join us and explore 25 brands presenting
inspiring designs in furniture, tableware,
jewelry, bags, stationery, and more.**

During Paris Design Week, the Korean Designers Network
Worldwide (KDNEW) is showcasing Korean designers and
their unique projects at Gallery Joseph Froissart.
Come and see what's new!

Ministry of Trade, Industry and Energy (MOTIE)

The Ministry of Trade, Industry and Energy is a central government body in Korea.

It oversees and coordinates international trade, commerce, research and development, energy, and resources. MOTIE's primary objectives are to strengthen the competitiveness of Korean businesses and ultimately boost the growth of the Korean economy.

Korea Institute of Design Promotion (KIDP)

Established in 1970, the Korea Institute of Design Promotion (KIDP) is the national design organization in Korea responsible for planning and implementing design policies and strategies.

Affiliated with the Ministry of Trade, Industry, and Energy (MOTIE), KIDP aims to enhance the quality of life for citizens through design and lead innovation in the Korean design industry.

doblé

doblé (Jin Han Industry Co., Ltd.) developed the world's first knife-resistant, non-scratch cutting board, certified by the U.S. FDA and certified by Germany's LFGB standards. We currently export to 29 countries worldwide.

Furmin

Furmin is a home essentials art brand of Korean aesthetic sensibilities, based on the unique works of Korean folk painter CHO Eunjung. Furmin reinterprets traditional folk paintings with a contemporary touch, creating a variety of useful, lifestyle art objects. CHO Eunjung’s folk paintings are characterized by unique colors and symbolism which infuse traditional culture and aesthetics into Furmin’s beautiful modern design, offering consumers a new experience and bringing traditional Korean art closer into the familiarity and accessibility of contemporary living spaces.

Meet the 8 Blessings - 3. Butterfly (The Blessing of Our Meeting)

This art object from the Furmin artwork fabric collection features a three-dimensional textile representation of a traditional Korean Dalhangari (moon jar). This symbolic porcelain jar, typically associated with blessings, is brought to life in fabric form. Furmin integrates traditional Korean culture and aesthetics into modern design, offering consumers a unique experience. Our creations are notable for their beautiful spatial presentation and high collectible value.

MATERIAL
Fabric Canvas

[L] 380*395*80mm
[M] 300*360*80mm
[S] 200*255*80mm

CAUTION
Please beware of surface contamination and staining. Handmade products are naturally unique, and may not be identical in form.

Meet the 8 Blessings - 1. Herb of Immortality (Health)

We have incorporated the concept of the “8 Blessings,” inspired by Korean folk art, into the design of everyday items like bags. These bags are crafted from highly durable, water-resistant fabric, offering both practicality and style with their sophisticated colors and patterns. The reversibility adds versatility to the distinctive, practical, and easy use for all.

Width: 355mm
Length: 260mm
Base Thickness: 106mm
1.9kg

- OPTION**
Walnut
Hard Maple
- CAUTION**
Keep out of children's reach.

Hériter's signature set includes a chef's knife, paring knife, a walnut cutting board and a holder.

- **Kitchen Knife & Paring Knife:** The Santoku-style kitchen knife is crafted by Master IM Jung-shin and uniquely designed by Hériter. The proprietary 0.3mm micro-serrated edge minimizes food sticking and maximizes cutting efficiency. The paring knife is designed with fruit curves in mind, increasing the cutting surface for easier fruit preparation. Both knives feature moisture-resistant, sturdy, and octagonal walnut handles for a stable grip.
- **Cutting Board & Holder:** The cutting board and holder are made from premium North American FAS-grade walnut and stainless steel. The cutting board is finished with FDA-approved oil and undergoes double the sanding and oiling compared to regular boards to enhance durability. The seamless stainless steel holder uses magnetic force to hold the board securely, keeping both the cutting board and knives hygienic. It can accommodate various types of knives and is designed to drain water from the surface of the knives and cutting board, also functioning as a drying rack.

Pottery Set

Hériter’s Pottery line, developed in collaboration with Yido, a manufacturer steeped in Korean traditional ceramics. It consists of three bowl types—for rice, soup, and noodles—and two plate types. A transparent matte glaze is applied to an optimally mixed clay body, showcasing the natural color of the earth. Crafted by a master, the line is also rich with atypical natural beauty. The whole set stacks in the form of a singular jar for storage space efficiency.

- MATERIAL
- Ceramic
- DIMENSIONS
- [Small Plate]
- Ø165*22(h)mm
- 300g
- [Large Plate]

DIDING Bucket Bag

This bucket bag, crafted from upcycling of worn-out fire suits, accommodates up to a 1-liter tumbler. An adjustable strap attaches to the side D-ring, enabling use as either a crossbody or shoulder bag. The front pocket provides storage for small items, while a rear carabiner allows secure fastening during camping or outdoor activities. A Velcro strap offers additional versatility, such as attachment to bicycle handlebars.

MATERIAL
Aramid 100%
Pet Recycle 100%

DIMENSIONS
155*155*240mm
300g

OPTION
Mustard

CAUTION
Upcycled fabric may show natural signs of wear such as tiered dyeing, tears, or reflector marks.

DIDING Sling Bag

Our versatile bag, upcycling of worn-out fire suits, offers five carrying options: crossbody, hip, sling, bicycle, or tote bag. Waist pads on both sides improve body contact when used as a hip or sling bag. The roll-top closure allows height adjustment based on contents, while a rear zipper provides quick access when the bag isn't full. When fully extended, the roll-top reveals a handle for tote bag use.

 - 400g
- OPTION**
 - Mustard
- CAUTION**
 - Upcycled fabric may show natural signs of wear such as tiered dyeing, tears, or reflector marks.

DIDING Cooler Bag

Crafted from aramid fabric salvaged from worn-out fire suits, this bag offers superior thermal insulation and durability compared to standard textiles. Its lightweight, high-strength, and waterproof properties make it ideal for outdoor cooler use. Available in three types, each with distinct features and ergonomic design, these bags enhance mobility and usability for stable, convenient use. The design minimizes user fatigue by reducing load stress and includes appropriate accessories.

- MATERIAL**

Tritzoi

Tritzoi is the first product crafted from a healthcare and wellness promotion beyond a simple seating solution.

Tritzoi embodies ‘Balance’, achieving a balance in body, function, and design as an ergonomic chair.

The four seat segments move forward and backward, side to side, helping users sit with proper posture. The chair’s 3D curved seat offers exceptional comfort, providing a unique experience compared to traditional wooden chairs.

and damp conditions.

Tritzoi_X

Tritzoi_X is a more dynamic and compact family model. While Tritzoi serves as a premium dining chair or design object, Tritzoi_X is a practical chair suitable for use anywhere. The main difference between Tritzoi and Tritzoi_X lies in their seating structure. Tritzoi_X features an exposed seat, allowing you to see the dynamic movement of its divided sections, which primarily move forward and backward.

Snail Unboxing Cutter

The Snail Unboxing Cutter is a snail-shaped box cutter made from recycled scrap wood. Inspired by snails that can climb anywhere despite their slow pace, the cutter was conceived with the idea of having a convenient box cutter that can be attached anywhere it must be. It is versatile with package cutting, featuring an exclusively crafted ceramic blade with outstanding cutting effectiveness and durability. The magnetic attachment offers quick and convenient use, especially around building entrance, exits, or refrigerators.

Laudual Head-Up Toothbrush

The toothbrush head is elevated at an angle of 8°, ensuring safety from bacteria. Also, back of the handle has an angled design, which allows water to drain away on its own from the bristles when you place it on a surface.

When holding the toothbrush, the angled edge of the backside naturally fits into the crease of the fingers, providing a stable grip and comfortable usage.

The Henderson ballpoint pen is named after a beautiful island designated as a World Heritage site by UNESCO, which has now sadly become a plastic waste island in the Pacific Ocean. To address this issue, we use biodegradable plastic alternatives, minimize plastic in the pen's barrel for easier decomposition, and provide a comfortable grip and cushioning effect during use.

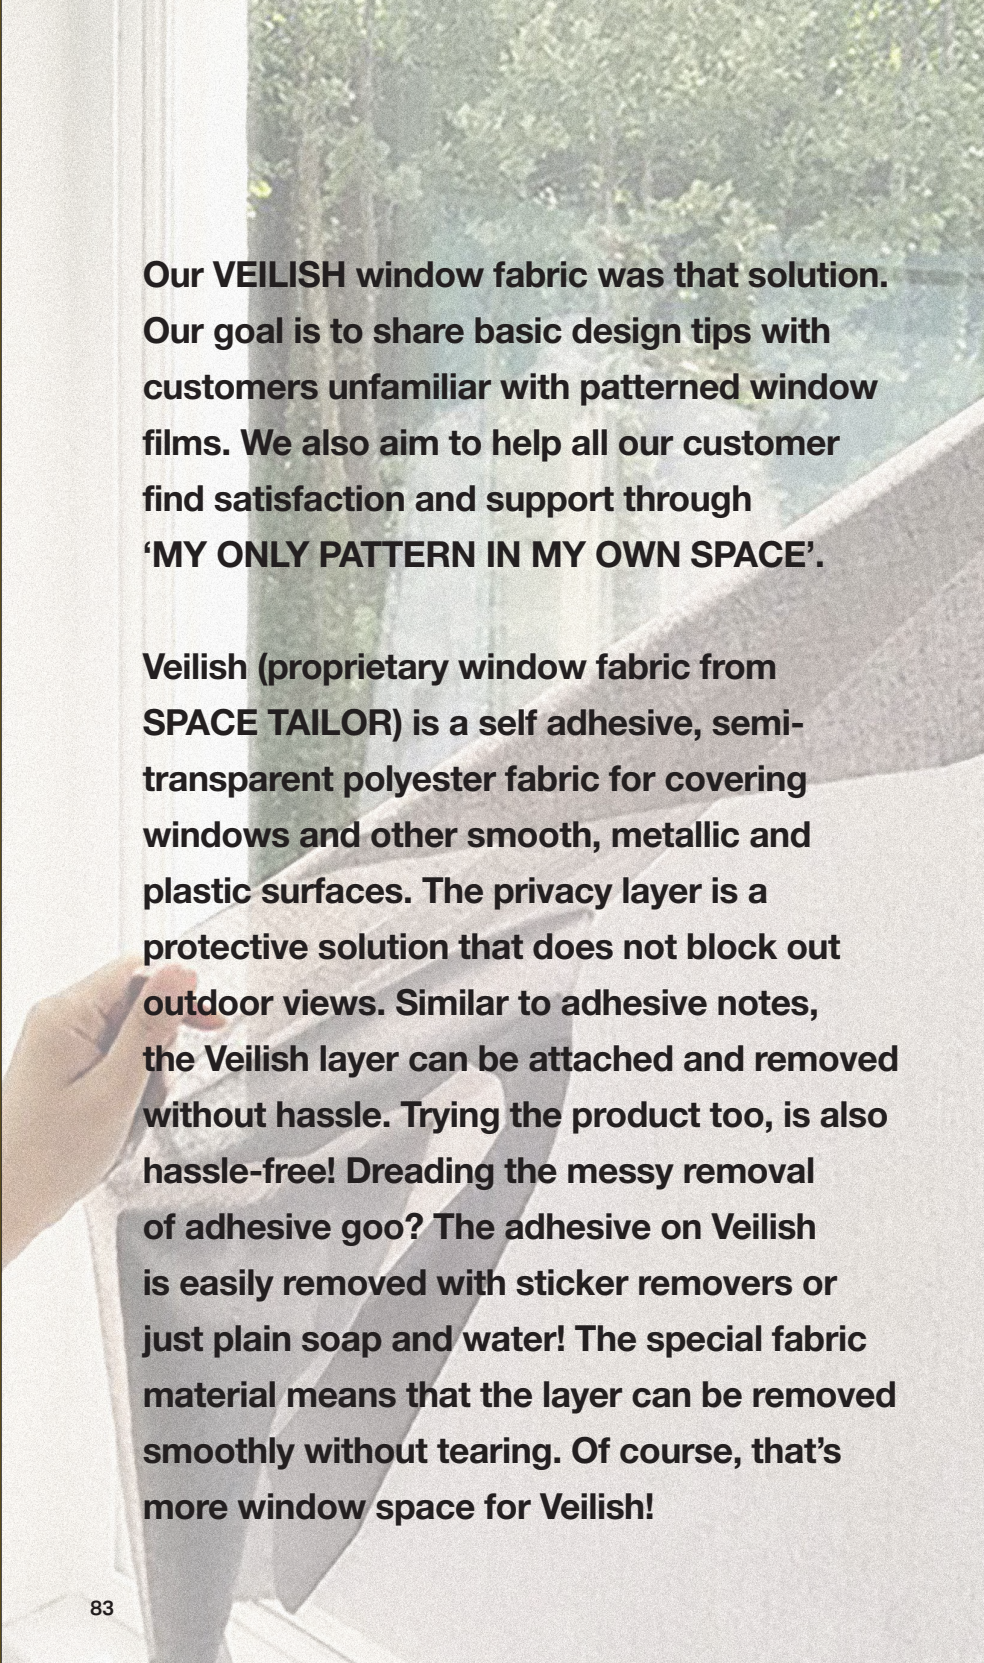

SPACE TAILOR

WINDOWS DRESSED UP

Every day, we take the time to make sure our outfit-of-the-day fits the mood and occasion. But why not our window films? Those can be freshly updated daily.

SPACE TAILOR started with the thought, “Can we dress our windows too?” We found that window decorating film as an interior accessory is an effective way to set the desired seasonal or spatial ambiance. On top of the aesthetic appeal and value, we wanted to deliver practicality at reasonable price points, and found a solution.

Established in	2018
CEO	PARK Sungho
Designer	KIM Yeji
Address	(07011) 65, Sadang-ro 16-gil, Dongjak-gu, Seoul, Republic of Korea

Instagram	@spacetailor_global

Our VEILISH window fabric was that solution. Our goal is to share basic design tips with customers unfamiliar with patterned window films. We also aim to help all our customer find satisfaction and support through ‘MY ONLY PATTERN IN MY OWN SPACE’.

Veilish (proprietary window fabric from SPACE TAILOR) is a self adhesive, semi-transparent polyester fabric for covering windows and other smooth, metallic and plastic surfaces. The privacy layer is a protective solution that does not block out outdoor views. Similar to adhesive notes, the Veilish layer can be attached and removed without hassle. Trying the product too, is also hassle-free! Dreading the messy removal of adhesive goo? The adhesive on Veilish is easily removed with sticker removers or just plain soap and water! The special fabric material means that the layer can be removed smoothly without tearing. Of course, that’s more window space for Veilish!

Veilish

1. VELLISH ON, VELLISH OFF

Veilish is a self-adhesive product that can be applied without additional adhesive or preparation. Similar to adhesive memos, Veilish can be attached and removed hassle-free. Veilish’s fabric material means it can be removed in one piece without tearing.

2. NO PLASTIC FILM HERE

Eliminate plastic film use in your space. Veilish is a natural window fabric that acts as a self-adhesive net curtain. It is an ideal non-PVC alternative to traditional decorative window films and foils.

Good Luck Fish

Inspired by the tradition of wrapping precious silk threads around a codfish and hanging it on the front door, symbolizing the wish for good luck and success, our unique cultural custom has been passed down for generations. Good Luck Fish is a digitally sculpted artwork created through a 3D program, featuring a codfish and silk threads. It combines modern colors, a compact size, and a magnetic attachment function to enhance its practicality as a product. It is a cultural item that conveys wishes for good fortune, making it suitable for various occasions such as housewarming, business openings, exam success, and safe journeys.

3rd Hand

- Plow - metal green, burnt iron
- Hands of cat - red, black

Koreans refer to a back scratcher as Hyojason, a name born out of longing for an offspring who would scratch their parents' itchy back. It carries precious meaning for Koreans as it was often associated with items kept close by and frequently used. Hyojason_Nakyup Sweeper is inspired by the shape of a traditional Korean farming tool called "soesrang," which was used to sweep fallen leaves. By observing the similarity between the act of sweeping leaves and scratching one's back, we planned and developed the product down to intricate details using a 3D modeling program.

Foi Ring

The wedding-band inspired Foi ring, meaning “promise” in French, is a signature piece from YLYL’s custom jewelry line. It breaks from traditional jewelry metals and reinterprets the shape of classic wedding rings in YLYL’s unique style. It comes packaged in YLYL’s heart symbol packaging made from biodegradable pulp material.

MATERIAL
Formica
Gold-plated Brass
Glass

DIMENSIONS
240*280*100mm
3g

OPTION
Yuzu
Clear
Amber
Ginger
Matcha
Bubblegum
Bonnieblue

CAUTION
Formica rings are discoloration resistant, but the metal parts are best stored under conditions without water and moisture.

Savon Ring

The first among the Savon collection, meaning “soap” in French, this ring is inspired by the organic shape and texture of soap. It features an engraved YLYL logo for a kitsch mood.

Popular among customers who prefer a casual look over flashy styles, this comes packaged in YLYL’s heart symbol packaging made from biodegradable pulp.

- MATERIAL
- Formica
- DIMENSIONS
- 220*260*140mm
- 3.5g
- OPTION
- Wool
- Olive
- Nude
- Syrup
- Ginger
- Butter
- Whisky
- Lavender
- Cucumber

CAUTION
Engraving depth, ring silhouette, and color may vary due to the organic design and crafting process.

Savon Pop

Designed with inspiration from the organic shape and texture of soap (Savon) pieces, this kitsch smartphone accessory features an engraved YLYL logo.

The actual size and texture of soap have been recreated as a familiar everyday item: a smartphone stand, allowing users to experience humor and wit in their daily lives.

Made from lightweight and durable Acrylic/CXP (recycled wood) material, it is designed for long-lasting use.

- MATERIAL
- Acrylic/CXP
- DIMENSIONS
- 750*550*50mm
- 12g
- OPTION
- Wool
- Wood
- Soda
- Paris
- Denim
- Butter
- Silver
- Matcha latte

CAUTION
A corner of the Savon Pop may have a small bump. This is due to the production process.
